INTRODUCTION

Welcome to our 2022 product catalog, where you will find all our products, specifications, and available options. Browse our wide variety of granite products that can be applied to your landscape as well as exterior and interior finishes.

Our goal is to provide premium granite hardscape materials at affordable pricing while improving, and re-designing the way we use natural granite.

We pride ourselves on bringing new ideas and techniques to the hardscaping industry with products that flow and integrate with one another, while simultaneously reducing installation times with precise manufacturing.

Our team of experts is here to support you every step of the way. From inquiries to delivery of products, we intend to keep you supplied with the quality materials you and your clients require.

THE GRANITE

Quality

Sourced from un-blasted bed rock and manufactured in Canada, this allows us to consistently supply the best quality products to our customers.

Durability

Created by centuries of Canada's rugged elements, these granite materials naturally withstand all exterior elements with minimal care.

Design

Our goal at Rock Interlock is to provide our customers with consistent, efficient products while reducing installation times and increasing productivity on site while maintaining a luxurious feel.

STEPS

Including a standard rise of 7" our solid granite steps easily transition from one feature to the next. Widths available from 4' - 8' and include a 16" depth for linear assemblies and 20" depth for curves.

Finished with a thermal abrasive surface ensuring a secure footing and guillotine split sides and face, these steps guarantee comfort, stability, and good looks.

AVAILABLE COLORS

Shadow Black

Soft Grey

Harvest Brown

FLAGSTONE

Including a standard thickness of 2", these large flagstone slabs can cover up to 50sqft in a single piece. Install them as extra large pavers, or cut them to any custom dimension or shape to create unique hardscape styling.

THE SMART FLAGSTONE SYSTEM

PATENT PENDING

Unique to Rock interlock, we have designed and developed the only pre-cut granite flagstone system on the market that resembles random-cut flagstone assemblies without the harsh labor, waste, dust, and noise associated with on-site cutting.

This product is a must for reduced access spaces, new builds, populated areas, or simply for its installation, product efficiencies, and great looks.

CONTINUED **THE SMART
FLAGSTONE
SYSTEM**

PATENT PENDING
